We are authorised and regulated by the Australian Securities and Investments Commission (ASIC), with licence number 391441 and registered office located at Level 35, Rialto South Tower, 525 Collins Street, Melbourne, 3000, Victoria, Australia.

The DD Obligations aim to assist Consumers to obtain appropriate financial products by requiring product issuers and distributors to have a consumer-centric approach to the design and distribution of financial products.

The purpose of this target market determination (**TMD**) is to describe the target market of Consumers for our CFDs, and to address the DD Obligations that apply to TMDs.

If you are a retail client, you should refer to the relevant Product Disclosure Statement (**PDS**) before deciding whether to acquire or continue to hold the relevant product. You can get a copy of the relevant PDS from our website.

You should not base any decision to trade on the contents of this TMD, and this document is not suitable for the purpose of deciding whether to open a CFDs trading account or trade in CFDs.

Financial products issued by us

CFDs are complex and leveraged financial products, which are traded over-the-counter (OTC) and not through a regulated market. CFDs are agreements to exchange the difference in the value of a particular underlying asset. This allows Consumers to speculate on rising or falling prices of an underlying asset.

We issue CFDs in respect of the following underlying assets:

- Currency Pairs (FX);
- Commodities, including precious metals;
- Indices, including stock market indices;
- Cryptoassets; and
- Stocks

This TMD has been prepared specifically in relation to our stocks CFDs. We have issued separate TMDs in respect of each of our other CFD offerings.

The Target Market

The target market for our CFDs include the following classes of Consumers:

Consumers who satisfy each of the following criteria:

- Consumers above the age of 18;
- Consumers who have the requisite knowledge for the purposes of trading in CFDs;
- Consumers who can accept losses that can be as great as the sum of their deposits;
- Consumers who have high investment risk appetites;
- Consumers with a short-term investment horizon.

For those Consumers who satisfy the above criteria

Those Consumers who satisfy the above criteria and wish to trade CFDs for investment purposes, including for one or more of the following purposes:

- Speculative trading;
- Hedging (including hedging exposure to underlying assets and hedging positions taken in relation to other CFDs); and
- Gaining exposure to price movements of the underlying assets - (including stocks), including where exposure to such underlying assets may not be otherwise as readily available, or where such exposure is required at short notice.

Target market – criteria, scope and key attributes

Further details regarding Place a Trade's target market for CFDs trading is set out below.

Criteria	Scope and key attributes
Client type	Retail clients. This target market determination does not apply to wholesale clients, including sophisticated investors and professional investors.
Knowledge and experience	Only clients who have the requisite knowledge and experience to trade in CFDs, as assessed by Place a Trade. Place a Trade undertakes assessment of the Consumer's experience and knowledge trading in CFDs prior to approving and distributing the products to the client.
Ability to bear losses	Clients who are prepared to lose amounts that can be as great as the sum of their total deposits. (Note: Place a Trade operates negative balance protection on all Retail accounts; negative balances will be returned to zero and we will waive our right to claim the deficit).
Tolerance to risk	CFDs are suitable for clients with high investment risk tolerance. Please note that there are particular risks associated with trading CFDs over stocks. These include but are not limited to: <ul style="list-style-type: none">• Unexpected news releases - share prices can move quickly or gap when unexpected news hits the market;• Significant changes or gaps in prices over a weekend, a major news event, or the release of macroeconomic data;• A previously tested strategy failing to perform in the same way, resulting in significant losses;• Nature of leverage - using leverage can lead to significant losses (including your entire deposit and any previously accrued profits) if the market moves against you;• Magnified losses - when trading with leverage, profits or losses can far outweigh the margin amount used to open a position as they are calculated based on the full position size, not just your margin. (Note: Because retail client accounts have negative balance protection, losses are limited to the value of the funds in your account).
Client needs	Our CFDs and their key attributes are likely to be consistent with the likely objectives, financial situation and needs of those Consumers who: <ul style="list-style-type: none">• have a short-term investment horizon;

-
- wish to trade in CFDs, including for speculative or hedging purposes, wishing to gain exposure to price movements of the relevant underlying assets (including stocks);
 - have a high investment risk tolerance; and

Our CFDs are designed to be suitable only for Consumers with the likely objectives, financial situation and needs described above. This is because our CFDs (and CFDs generally) are highly leveraged and volatile, and expected returns may be positive or negative.
